28 AUGUST 2025 - PRESS RELEASE

2025 half-year results: Mirabaud announces 20% increase in net profit

Geneva, 28 August 2025 – Mirabaud, an international banking and financial group, family-owned and independent since 1819, today presents its unaudited half-year results for 2025, reporting a 20% increase in net profit to CHF 12.1 million as at 30 June 2025. The Group is focusing on its core businesses of Wealth Management and Asset Management and is continuing to roll out its investment plan while maintaining strict cost controls. Mirabaud therefore continues to enjoy a robust financial position, with a CET 1 ratio of over 20%.

As at 30 June 2025, the Mirabaud Group's revenues amounted to CHF 143.5 million (CHF 147.6 million as at 30 June 2024) with commission and trading income amounting to CHF 104.3 million (CHF 103.0 million as at 30 June 2024) and CHF 16.0 million (CHF 11.7 million as at 30 June 2024) respectively. The interest margin, at CHF 16.8 million, is down due to lower interest rates (CHF 26.6 million as at 30 June 2024). Operating expenses remain stable at CHF 125.7 million (CHF 125.9 million as at 30 June 2024). The Group thus posted a 20% increase in consolidated net profit to CHF 12.1 million (CHF 10.1 million as at 30 June 2024), demonstrating the resilience of its business model.

In a market environment characterised by increased volatility and unfavourable exchange rate effects, the Group's assets under management amounted to CHF 30.0 billion, down from CHF 32.3 billion at the end of 2024. This decline is mainly due to a one-off exit from non-core assets, linked to the concentration of Wealth Management activities in our target markets, as well as the sharp depreciation of the US dollar against the Swiss franc. These economic factors do not reflect the Group's strong commercial momentum or its growth prospects.

Mirabaud reports a solid and liquid consolidated balance sheet totalling CHF 2.1 billion (CHF 1.9 billion as at 31 December 2024). As at 30 June 2025, the Group also posted a CET 1 ratio of over 20% and a liquidity coverage ratio (LCR) of 200%. These levels, which are well above the minimum requirements set by FINMA and Basel III, reflect the financial strength of the Mirabaud Group, whose business model is based on risk management and long-term investment.

Lionel Aeschlimann, Senior Managing Partner of the Mirabaud Group, said: "The increase in our net income in the first half of the year reflects the positive effects of our strategic choices and rigorous execution. We are continuing our targeted investments to strengthen our fundamentals, particularly in the transformation of our private banking technology infrastructure and international development. Our efforts are now fully focused on driving our growth momentum, both in our Wealth Management and Asset Management activities, with a view to creating sustainable value for our clients."
