

No Consideration of the Adverse Impacts of Investment Advice on Sustainability Factors on the Entity Level

Mirabaud & Cie (Europe) SA and its branches in France, Spain and United Kingdom, **(Bank)** does not consider adverse impacts of its investment advice on sustainability factors on the entity level.

The Bank has decided not to consider adverse impacts due to the implementation of different investment strategies that do not allow for a unified consideration of principal adverse impacts across different investment services offered by the Bank.

As the Bank (and Mirabaud Group as a whole) remains committed to a more sustainable and transparent global finance, the Bank may reconsider its position in the future, notably regarding consideration of principle adverse impact No. 7 (Activities negatively affecting biodiversity sensitive areas).
